

## ACCESS Outage and Transition to New ACCESS Platform

April 2, 2026

Dear ACCESS E-Filer:

On April 20, 2026, Enforcement and Compliance (E&C) will transition to a new platform for its Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). The new platform will enhance security and technological efficiencies.

In preparation, ACCESS will be completely shut down from Thursday, April 16, 2026, at 5:00pm EDT until Monday, April 20, 2026, at 7:30am EDT. ACCESS will not be available for internal or external users. Users will not be able to e-file, search, or review documents in ACCESS during this time.

Please plan ahead and download any documents that you will need from ACCESS during this outage.

We will continue to provide updates and training resources in the coming weeks. We appreciate your patience as we implement these improvements. If you have any questions, please email the ACCESS Help Desk at [access@trade.gov](mailto:access@trade.gov) or call 202-482-3150.

Sincerely,  
ACCESS Team
